Contents of Volume 12

No. 1

Research Papers

T. Kamahora, L.H. Soe and M.M.C. Lai (U.S.A.)
Sequence analysis of nucleocapsid gene and leader RNA of human coronavirus OC43 1

H. Pande, K. Campo, M.A. Churchill and J.A. Zaia (U.S.A.)
Genomic locus for a 140 kDa structural protein (pp150) of human cytomegalovirus in strains Towne and AD169 11

K.M. Kean, H. Agut, O. Fichot and M. Girard (France)
Substitution in the poliovirus replicase gene determines actinomycin D sensitivity of viral replication at elevated temperature 19

S. Chatterjee and R.J. Whitley (U.S.A.)
Effect of recombinant hybrid human interferon on replication and morphogenesis of HSV-1 in monkey cells 33

A. Rösen-Wolff, J. Scholz and G. Darai (F.R.G.)
Organotropism of latent herpes simplex virus type 1 is correlated to the presence of a 1.5 kb RNA transcript mapped within the *Bam*HI DNA fragment B (0.738 to 0.809 map units) 43

H.-Y. Zhang, G. Qu, Z.-W. Deng, T.-H. Yao and R. Glaser (U.S.A., Republic of China)
Epstein-Barr virus DNA in nasopharyngeal biopsies 53

G.D. Elliott, M.A. Afzal, S.J. Martin and B.K. Rima (N. Ireland)
Nucleotide sequence of the matrix, fusion and putative SH protein genes of mumps virus and their deduced amino acid sequences 61

N. Elango (Sweden)
The mumps virus nucleocapsid mRNA sequence and homology among the Paramyxoviridae proteins 77

J. Kövamees, E. Norrby and N. Elango (Sweden)
Complete nucleotide sequence of the hemagglutinin-neuraminidase (HN) mRNA of mumps virus and comparison of paramyxovirus HN proteins 87

No. 2

Research Papers

R. Li, P. Palese and M. Krystal (U.S.A.)
Complementation and analysis of an NP mutant of influenza virus 97

J. Mandler and C. Scholtissek (F.R.G.)
Localisation of the temperature-sensitive defect in the nucleoprotein of an influenza A/FPV/Rostock/34 virus 113

0168-1702/89/$03.50 © 1989 Elsevier Science Publishers B.V. (Biomedical Division)

C.A. Crouse and R.J. Pauley (U.S.A.)
Molecular cloning and sequencing of the *MTV*-1 LTR: evidence for a LTR sequence alteration 123

H.G.A.M. Van der Avoort, A.G. Wermenbol, T.P.L. Zomerdijk, J.A.F.W. Kleijne, J.A.A.M. Van Asten, P. Jensma, A.D.M.E. Osterhaus, A.H. Kidd and J.C. De Jong (The Netherlands, New Zealand)
Characterization of fastidious adonovirus types 40 and 41 by DNA restriction enzyme analysis and by neutralizing monoclonal antibodies 139

S. Klages, B. Rüger and G. Jahn (F.R.G.)
Multiplicity dependent expression of the predominant phosphoprotein pp65 of human cytomegalovirus 159

R. Ray, M.S. Galinski and R.W. Compans (U.S.A.)
Expression of the fusion glycoprotein of human parainfluenza type 3 virus in insect cells by a recombinant baculovirus and analysis of its immunogenic property 169

Book Review 181

Announcement 182

No. 3

Research Papers

I.R. Cameron and R.D. Possee (U.K.)
Conservation of polyhedrin gene promoter function between *Autographa californica* and *Mamestra brassicae* nuclear polyhedrosis viruses 183

R.H. Kimberlin and C.A. Walker (U.K.)
The role of the spleen in the neuroinvasion of scrapie in mice 201

R.H. Kimberlin and C.A. Walker (U.K.)
Pathogenesis of scrapie in mice after intragastric infection 213

S.W. Yie, G.K. Podila and R.F. Bozarth (U.S.A.)
Semiconservative strand-displacement transcription of the M2 dsRNA segment of *Ustilago maydis* virus 221

A.C.-K. Lai and B.G.-T. Pogo (U.S.A.)
Characterization of vaccinia virus deletion mutants isolated from persistently infected Friend erythroleukemia cells 239

Review Article

R.W. Storms and H.R. Bose, Jr. (U.S.A.)
Viral oncogenes and signal transduction 251

Research Paper

L.V.M. Wall, H.T. Zwartouw and D.C. Kelly (U.K.)
Discrimination between twenty isolates of herpesvirus simiae (B virus) by restriction enzyme analysis of the viral genome 283

Announcement 297

No. 4

Research Papers

M. Cerutti, P. Cerutti and G. Devauchelle (France)
Infectivity of vesicles prepared from chilo iridescent virus inner membrane: evidence for recombination between associated DNA fragments 299

M. Brunner, G. Di Mayorca and E. Goldman (U.S.A.)
Absence of BK virus sequences in transformed hamster cells transfected by human tumor DNA 315

K. Bhavani, A.A. Karande and M.S. Shaila (India)
Preparation and characterization of monoclonal antibodies to nucleocapsid protein N and H glycoprotein of rinderpest virus 331

C. Penn (U.K.)
The role of RNA segment 1 in an in vitro host restriction occurring in an avian influenza virus mutant 349

S.A. Harmon, D.F. Summers and E. Ehrenfeld (U.S.A.)
Detection of hepatitis A virus RNA and capsid antigen in individual cells 361

M.M. Binns and N.L.J. Ross (U.K.)
Nucleotide sequence of the Marek's disease virus (MDV) RB-1B A antigen gene and the identification of the MDV A antigen as the herpes simplex virus-1 glycoprotein C homologue 371

P.L. Summers, W. Houston Cohen, M.M. Ruiz, T. Hase and K.H. Eckels (U.S.A.)
Flaviviruses can mediate fusion from without in *Aedes albopictus* mosquito cell cultures 383
